

# SELECTED PROJECTS (PRIOR AND ONGOING)

## USVI

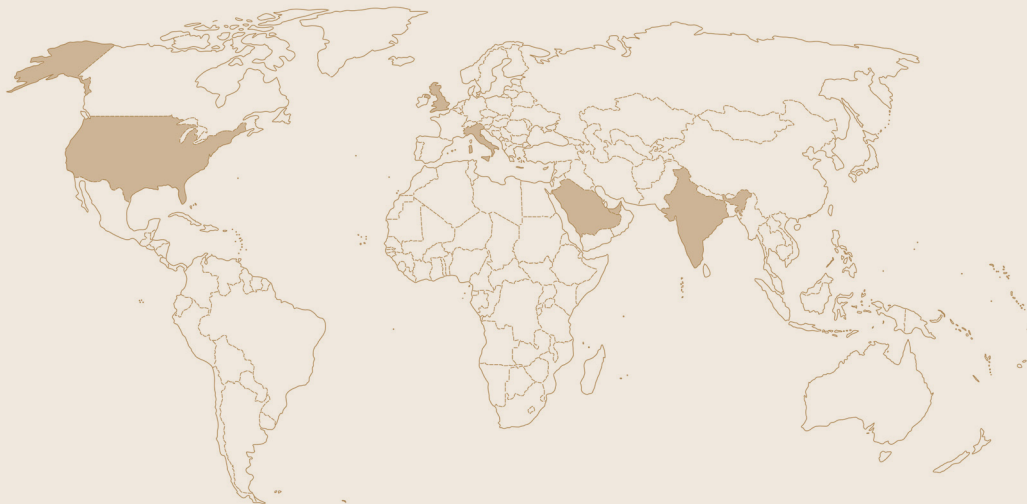

- Presently working with Virgin Islands Department of Education on archaeological monitoring associated with demolition of the Charlotte Amalie High School in St. Thomas.
- Dozens of projects involving various archaeological surveys/investigations, excavations (including shipwreck sites), historic preservation, remote sensing, Due Diligence Feasibility Studies, and more.
- Supported recovery efforts from Hurricanes Irma and Maria, providing the USVI and NPS with a comprehensive survey and documentation in partnership with the Virgin Islands State Historic Preservation Office toward a treatment plan for St. Thomas's Creque Marine Railway (St. Thomas Marine Repair Facility).

## OTHER

- Various ongoing and completed projects in Puerto Rico, Belize, and other locations.

With worldwide capacity, Chronicle Heritage is uniquely able to mobilize expert staff in any geography to offer support across all market sectors.

# CARIBBEAN CULTURAL CAPABILITIES

Streamline your projects through cultural and environmental regulatory challenges

# CHRONICLE HERITAGE: BUSINESS-FOCUSED CONSULTANTS THAT DELIVER

Chronicle Heritage is dedicated to solution-driven consulting on behalf of clients needing their projects guided through the regulatory challenges posed by cultural resources (prehistoric, historic, architectural, ethnographic, and paleontological).

Our combined strengths enable swift delivery on wide-ranging government and private-sector projects, both terrestrial and underwater.

As a leading cultural resource management firm, we leverage our global reach and tech-centric approach to provide exceptional service wherever we're needed in the Caribbean and beyond.

## KEEPING YOUR PROJECTS IN THE CARIBBEAN ON TRACK

Our team has worked in Puerto Rico, the United States Virgin Islands, Belize, and across the Gulf Coast of the United States on dozens of projects over the past 40 years. We've delivered cultural resource regulatory services including archaeological surveys, excavations, historical research, architectural surveys, and more, supporting climate change initiatives and post-Disaster response and recovery efforts.

In every project, we act as proactive partners, leveraging our expansive resources and long familiarity with the Caribbean to help clients resolve regulatory obstacles involving cultural resources.

## TIMELY, EFFECTIVE ASSISTANCE IN THE CARIBBEAN AND ACROSS THE GLOBE

### PRIMARY SERVICES

- Archaeology
- Heritage Preservation
- Underwater Archaeology
- Tribal Consultation
- Cultural Landscape
- Paleontology
- Architectural History
- Technology Solutions

### LEVERAGING TECHNOLOGY FOR SMARTER SCIENCE

Chronicle Heritage is exceptionally tech-forward. We accelerate fieldwork and create higher-quality deliverables using our unique all-digital process and tools including LiDAR, Ground-Penetrating Radar (GPR), and more.

These reduce delays and costs while better promoting preservation initiatives (e.g. virtual tours).

## WE ARE CONNECTED IN THE CARIBBEAN

Our prior work and ongoing partnerships with the following agencies provide efficient assistance with regulatory projects.

- United States Virgin Islands State Historic Preservation Office
- Virgin Islands Department of Public Works
- Virgin Islands Department of Education
- St. Croix Historic Commission
- St. Thomas and St. John Historic Commission
- Federal Emergency Management Administration
- National Park Services
- United States Army Corps of Engineers-Jacksonville District

## SPOTLIGHT: OUR WORK IN THE U.S. VIRGIN ISLANDS

Our team's history in the U.S. Virgin Islands goes back to 1980 and includes terrestrial and underwater projects on various scales throughout the region for the government and private sectors.

We're invested in strengthening our longtime partnerships in the USVI and continuing to highlight the USVI's history and stories, engage thought leadership, and drive community engagement initiatives.
