

3D MODELING

Creative mitigation solutions using noninvasive, nondestructive photogrammetry and LiDAR

Chronicle Heritage is an industry leader in 3D solutions and proficient in both ground-based and aerial-based techniques for capturing 3D model data. These services can provide creative mitigation options on cultural resource projects. For example, an increasing number of tribes have recommended 3D modeling as a mitigation option for tribal cultural resources with California's implementation of Assembly Bill 52.
