

FROM PERMITTING THROUGH COMPLIANCE, WE'VE GOT YOUR BACK

KEEP YOUR ENERGY PROJECT ON TRACK

A TRACK RECORD THAT SPEAKS FOR ITSELF

With over 15 years of experience in the renewables sector, our cultural resource consultants' smart, proactive, and scalable assistance has earned the trust and respect of developers across the United States.

SAVE TIME AND MONEY WITH THE CHRONICLE WAY

Streamline your renewable energy project with the Chronicle Way, our all-digital data management system which omits hours of work and minimizes costly errors. Our team leverages this approach and their regional expertise to help you navigate your project from siting studies through permitting and construction compliance – the smarter way.

STRONG AGENCY RELATIONSHIPS

Waiting on approvals can create anxiety when deadlines are looming. That's why our experts leverage close relationships with federal, state, and local agencies to reduce potential delays and find a swift path through complex regulations.

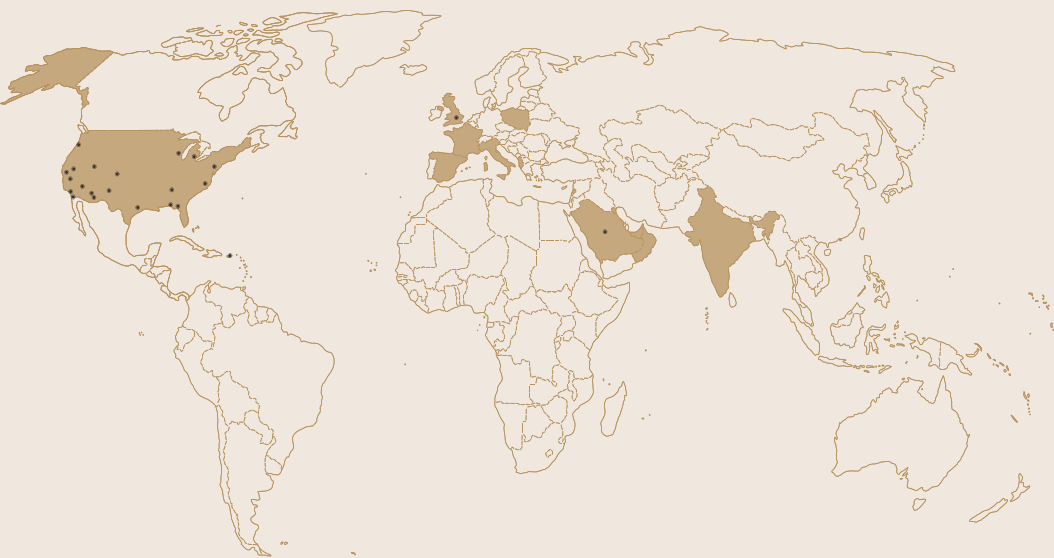

PIVOTING IN THE FACE OF CHANGING DEMANDS

Our responsive team has seen it all and has the know-how to swiftly maneuver the unique challenges of your energy projects. By prioritizing responsiveness and reducing delays, we can swiftly deploy regional experts to navigate any regulatory challenge to keep your projects on time and on budget.

With offices **coast to coast and a global presence**, Chronicle Heritage is uniquely able to mobilize expert staff to conduct operations in any geography and in support of all types of market sectors.

CHRONICLE™
HERITAGE

GET THE GREEN LIGHT FOR YOUR OFFSHORE WIND PROJECT

Streamline your projects through
cultural and environmental
regulatory challenges

Chronicle Heritage has operated in the renewable energy sector since 2009, guiding renewable powerhouses such as EDF, Avangrid, and NRG through heritage regulations. We continue to support some of the largest onshore wind, solar, and power projects across the United States.

Our experts have permitted and licensed over 500,000 acres of land for renewable energy development. That's why you can trust us to deliver solution-driven and cost-effective approaches that will push your offshore wind development forward and meet your compliance needs.

**POWERING
OFFSHORE WIND
DEVELOPMENT
PROJECTS TO THE
FINISH LINE**

NO MISSED DEADLINES, NO BUDGET OVERSPEND, WE'LL GET THE JOB DONE

Chronicle is the ally in your corner, not the hurdle in your way. We leverage regional expertise, longtime agency ties, and more to expedite Section 106 reviews and other regulatory processes, helping you hit the major milestones of your offshore wind development on time and within budget.

HOW WE GUIDE YOUR OFFSHORE PROJECT TO COMPLETION

SITING STUDIES

Risk assessment
of project development
area.

PERMITTING & LICENSING

Gain the necessary
approvals to get going
with construction.

AND MONITORING
- DATA RECOVERY AND OTHER
MITIGATION PROGRAMS
- TRIBAL MONITORING
- NAGPRA COMPLIANCE

“Chronicle Heritage was able to pivot, adapt and communicate new plans to the clients and stick to the original timeline.”

PROACTIVE TRIBAL ENGAGEMENT

With many Native American cosmologies closely tied to historical resources found across the U.S., Native American tribal engagement is a priority for any offshore wind project. Benefit from our strong relationships with tribes nationwide to facilitate discussions and develop the mitigation strategies that will keep your project moving forward.

Our services for Native American groups include:

- Development of Tribal Historic Preservation Office Programs
- Reservation-wide cultural resource inventories
- Tribal registers and associated GIS databases
- Tribal resource management plans
- Cultural resources training programs for Native American monitors
- Preparation of agreement documents

TRIBAL OUTREACH FOR TWO SOLAR PROJECTS

Riverside County, California

Chronicle Heritage facilitated tribal consultation outside the Section 106 process by contacting Consulting Tribes on behalf of our clients. Using virtual or in-person meetings per each tribe's preference, we set meetings between Tribes and the client to introduce the project, address each tribe's questions and potential concerns, and foster development of independent long-term relationships between both parties. The lead federal agency acknowledged Chronicle Heritage's outreach efforts on behalf of its clients and its willingness to collaborate with all stakeholders.

“Chronicle Heritage prioritizes proactive, continuous tribal outreach throughout the project lifecycle.”
