

OUR APPROACH

Our client-friendly approach combining state-of-the-art technology, knowledge, and expertise ensures maximum efficiency and keeps your project on track.

The nation's first all-digital firm of its kind, Chronicle Heritage has developed the premier approach to projects, employing a fully-digital workflow for data collection and management.

OUR SYSTEM:

- Eliminates digitization after fieldwork
- Enables faster, more accurate data entry via autofill and other features
- Safeguards your project data with continuous backups
- Speeds projects through to completion

LEADING WITH TECHNOLOGY

AERIAL IMAGING

Produce survey-grade maps, elevation models, and 3D reconstructions of sites, features, and landscapes at a fraction of the cost of using traditional methods.

3D MODELING

Quickly model project or museum objects for digital preservation to allow for 3D replica reprinting on demand.

We deliver on your business objectives - our system streamlines data collection, eliminates rework and error, and produces report-ready data from the start, **delivering on time, on budget, and meeting your heritage responsibilities.**

DELIVERING THE IMPOSSIBLE

Leveraging our signature digital workflow system, we were able to meet a deadline for **Vintage Partners in Tuscon, Arizona** that would previously have been impossible. The field component of the land development deal, which lay in direct conflict with a federally-regulated prehistoric archaeological site, **was slashed from 18 weeks down to just 10.**

And better still, the clearance report was available for submission the day after completion of fieldwork - **allowing us to win approval from the lead federal agency in a remarkable 30 days.** The revolutionary project stands as the nation's first large-scale, all-digital archaeological excavation.

CHRONICLE™
HERITAGE

BREAK NEW GROUND WITH CHRONICLE HERITAGE

Successfully guiding major projects
through regulatory challenges

China Lake

Chronicle Heritage created the world's most extensive 3D digital model of prehistoric rock art, for the Department of the Navy.

Chronicle Heritage is dedicated to solution-driven consulting on behalf of clients needing their projects guided through the regulatory challenges posed by cultural resources (prehistoric, historic, architectural, ethnographic, and paleontological).

"WE PRIDE OURSELVES ON BEING
THE MOST INNOVATIVE TEAM
OF PROBLEM-SOLVERS IN
THE BUSINESS."

BUSINESS-FOCUSED CONSULTANTS THAT DELIVER

Our extensive experience and connections with regulatory agencies and tribes allow us to navigate our clients around potential pitfalls and ensure projects stay on track.

OUR SERVICES INCLUDE:

- Archaeological surveys
- Archaeological excavation, testing, and monitoring
- Ethnographic consultation
- National Register eligibility assessments
- Historical Resources
- Section 106 consultation
- National Historic Preservation Act
- Native American Graves Protection and Repatriation Act
- National Environmental Policy Act compliance
- Expert witness testimony
- Paleontological studies
- Database development
- 3D Modeling
- Low Altitude Aerial Imaging and Mapping
